LIST OF INGREDIENTS

Calcium Carbonate, Salt, Corn Distillers Dried Grains with Solubles, Soybean Oil, Thiamin Mononitrate, Copper Sulfate, Sodium Selenite, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Silicon Dioxide, Ethoxyquin (a preservative up to 12.0%), Butylated Hydroxyanisole (a preservative), Citric Acid (a preservative), Phosphoric Acid, Zinc Sulfate, Zinc Oxide, Ferrous Sulfate, Manganese Sulfate, Manganese Oxide, Ethylenediamine Dihydriodide, Calcium Iodate, Cobalt Sulfate, Cobalt Carbonate.

FEEDING DIRECTIONS

Feed at a rate of 0.5 lb/head/day to provide 250 mg/head/day of Monensin (Rumensin®). Provide an abundant, fresh supply of water. Provide a separate source of salt free choice. For further directions consult your supplier or nutritionist.

CAUTION: Do not allow horses or other equines access to feeds containing Monensin. Ingestion of Monensin by equines has been fatal. Monensin-medicated cattle and goat feeds are safe for use in cattle and goats only. Consumption by unapproved species may result in toxic reactions. Do not feed undiluted. Feeding undiluted or mixing errors resulting in high concentrations of Monensin has been fatal to cattle and could be fatal to goats. Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average daily gains may result. If feed refusals containing Monensin are fed to other groups of cattle, the concentration of Monensin in the refusals and amount of refusals fed should be taken into consideration to prevent Monensin overdosing.

WARNING: A withdrawal time has not been established for pre-ruminating calves. Do not use in calves to be processed for veal.

CAUTION: This feed contains added copper, do not feed to sheep.
CAUTION: Do not exceed 0.3 mg/kg of selenium in the complete feed.
